We are researching and developing something that could be more interactive in the future. But, in a part of the progress, this is the special issue of visual (noise) art. Have a good day!

Disturbing Picture

The phrase “disturbing picture” comes from the pictures which show sadistic, bad design organizing, and/or something that has been blamed as a lack of human value

You maybe disgust when see the picture of a man that has strange legs showing its bone wide open or you will laugh aloud after watching a poster with bad design. Some people call it disturbing picture. Actually (or unfortunately), it is a kind of art too.

Firstly called abstract, disturbing picture is influenced by absurdity, sadistic, collage, and some of existentialism and nihilism. Uncommon expressions have been made for catching the attention of the public. The purpose of the artwork making is usually not described or exposed on the art clearly. Thus, people cite it as something disturbing.

"It's a disturbing picture but it's also a disturbing subject." A quote by an Afro-Swedish artist, Makode Linde, has been got the criticism of his artworks in his exhibition that performing a big black cake. He takes the cultured-issue of the black which is a sensitive issue in the common regional. Otherwise, the exhibition is appreciated by Swedish Minister, Lena Adelsohn Liljeroth,

"Art must be allowed to provoke."

Nude Art

"What spirit is so empty and blind, that cannot recognize the fact that the foot is more noble than the shoe, and skin more beautiful than the garment with which it is clothed?" -Michelangelo

By the quote line, this art has its basic on nudity. It has been years existed and explored by the line of artists. Clark, Keneth says that subject of art is abstract if it is no nude. The erotic feeling is the purest feeling of human as a human. It is a natural expression flowing. Otherwise, some communities judge it as a pornographic.

Common People vs Artists

Pornography and nude art are about being debated for long time. When a (female) body is exposed with no clothes or just a half of it, people in common react by saying the politeness policy. Controversial things are coming out and the patrons of some religions have insulted the kind of art. The war is not ended yet.

Extended and Exclusive

Nude art becomes exclusive and drives to the very restricted space, especially, the exhibition. By the consideration of any several values, the nude artists now hold their exhibition for only particular guests. The art cannot be showed that easy in public because of there are so many interpretations of the people. Nudity is the sensitive object that will drive some common public opinions.

Nude Art in Indonesia

Indonesia is a country which influenced by Moslem's value. Commonly, almost all of them againts nude art. However, Indonesia has many of traditions and cultures. Some of the traditions have explicit aesthetic in nudity. Bali is one of the place that has shown a topless woman in the field. However, by the time, there are conflicts in the local peasants and public figures. Nudity (even it is a part of tradition) is now being more forbidden.
